IMT Asset Management receives the WealthBriefing Swiss EAM Award 2022 and is part of the Citywire Top50 EAM

March 3, 2022

IMT Asset Management AG receives the WealthBriefing Swiss EAM Award 2022 in the category "Based in Liechtenstein".

This prize, which is being awarded for the second time, goes to outstanding independent asset managers in Switzerland and Liechtenstein who have stood out in the past year for their innovation and exceptional performance. The award committee is made up of independent, renowned experts.

The categories of the WealthBriefing Awards are divided according to areas of expertise and geographical regions. The rigorous selection process and the large number of qualified applicants make the award so valuable for the winners.

The WealthBriefing Swiss Awards are part of a global program run by WealthBriefing and its sister

publications WealthBriefingAsia and Family Wealth Report, covering all the world's major wealth management centers.

The financial industry is facing multiple and significant challenges. In such times, awards like these are particularly valuable. Clients and potential clients receive independent confirmation that the winners have a solid and sustainable business model.

In addition, IMTA Asset Management was recently included in Citywire's Top50 Independent Asset Managers (EAM).

Dr. Ereik Nuener, chairman of the Board of Directors, commented on the success as follows: "We are proud and delighted to be honored with this internationally recognized award. This award is a result of the strict implementation of our corporate philosophy, which is based on the five pillars of independence, transparency, fairness, discipline and sustainability. Our investment strategies have proven to be extremely sound over the past years and are regularly awarded 4 and 5 stars by Morningstar."
